FY2026 Journal Entry Testing · Draft Findings for the CPA

Findings for the CPA from audit procedures; not an audit report and no opinion.

Client	HANGS Construction Services LLC
Period	Every journal entry of the fiscal year ended June 30, 2026
Engagement	Year-end audit procedures for the risk of management override: the general ledger population, its completeness, risk filters, a sample, and every entry after the close.
Prepared from	10 files: the trial balance and the June 30, 2025 balances, the general ledger export, the manual journal listing, the system's users, sources and periods, the journal entry policy, the contract schedule, the fixed asset register, the support for the selected entries and management's answers
Prepared by	The F1 Finance Audit Machine, a demonstration. Fixed procedures on invented data; no AI model was used.
Status	Draft. Not reviewed, concluded or signed. Nothing was posted or sent to the client, the bank or the bonding company.

Materiality, Proposed

Contract revenue for the year, the benchmark	$68,989,500.00
Materiality: 0.5% of revenue, rounded down	$340,000.00
Performance materiality: 75%	$255,000.00
Debits in the population, every FY2026 entry	$314,524,504.72

What the Procedures Found

Procedure	What was found	Amount
Top-side	A $48,000 revenue entry dated June 30, posted on a Saturday night after the close, unsupported, reversed July 2 (TOP-01)	$48,000.00
Approval	The depreciation true-up was recorded and approved by the same person; its amount recomputes (SELF-01)	$26,900.00
Review	The Controller's manual entries over $25,000 have no independent approval: the walkthroughs' JE-01 and more	$9,763,571.44
Listing	Two manual entries keyed outside the journal screen are not on the manual listing (LIST-01)	$282,600.00
Weekend	The June over and under billings, posted on a Sunday, agree with the contract schedule: explained	$979,098.00
Pairs	The crane sale proceeds debit the term loan and credit accumulated depreciation: the equipment audit's SALE-01	$180,000.00
Sample	Every other selected entry agrees with its support to the cent	$8,116,965.44

Signature: none. This memo is not an audit report and expresses no opinion. The CPA reviews the workpapers, decides every open item and concludes. No adjustment has been posted.

DRAFT FOR THE CPA

Draft Findings Memo

Against Materiality

Known misstatements in income (TOP-01)	**($48,000.00)**
Clearly trivial	$17,000.00
Performance materiality	$255,000.00
Materiality	$340,000.00

What was done

The machine agreed the export with the system’s control totals, proved every entry balances and the numbers run, rolled every account from June 30, 2025 to the trial balance, compared the manual entries with the listing, profiled the population, ran seven risk filters, vouched every high-risk entry and a random selection, tested every top-side entry and every reversal after year end, and read management’s answers.

What the records support

The population is complete and the subledgers explain most of it. The weekend entry agrees with the schedule; every top-side entry but one agrees with its support. The ledger changed after the close: one unsupported revenue entry.

What the CPA decides before concluding

1. TOP-01 and whether it is an override of controls (OVR-01), and what to ask the officers. 2. The control findings LOCK-01, SELF-01, LIST-01 and, with the walkthroughs, JE-01. 3. Materiality (MAT-01) and the representation letter (MRL-01).

What the machine does not do

It does not decide intent, give an audit opinion, sign anything, contact the bank or post an adjustment. The CPA concludes; the machine stops here.

WHAT STILL NEEDS A PERSON

TOP-01 · $48,000.00: 26-01261 (AJ-26-0633) debits account 1300 and credits Pier 9 contract revenue $48,000.00, dated June 30, 2026 and posted August 8, 2026 at 9:41 PM, after June was closed, by the Controller, with no approval and no support; it reversed on July 2, 2026. Proposed: reverse it in FY2026 (revenue and account 1300 down $48,000.00) and remove the July 2 reversal from FY2027. The trial balance the other FY2026 areas read does not include it.

OVR-01: The CPA evaluates whether TOP-01 is an override of controls: an unsupported revenue entry by the person who closes the books, posted after the close and two days before the compliance certificate went to the bank, set to reverse. The CPA decides what to ask the officers and whether the risk assessment or other procedures change.

LOCK-01: The policy says a closed period is locked; the system's period lock is not used, and FY2026 accepted an entry five days after the year was closed. A control deficiency for the CPA to evaluate.

SELF-01 · $26,900.00: 26-01259 (AJ-26-0631), the $26,900.00 depreciation true-up, was prepared, posted and approved by the Controller. The amount recomputes from the register; the approval is not independent. A control deficiency, with JE-01.

JE-01 · $9,763,571.44: 40 manual entries over $25,000, $9,763,571.44, were posted by the Controller with no one else's approval: the control walkthroughs' 30 ($8,045,083.44), the 8 top-side entries after them and the 2 keyed outside the journal screen. The walkthroughs proposed it as a significant deficiency; the CPA decides with SOD-01 whether it is a material weakness.

LIST-01 · $282,600.00: The manual journal listing covers the journal screen only. 2 manual entries keyed on the bank and equipment screens, $282,600.00, are not on it, so the walkthroughs' test of manual entries could not see them. Recommendation: report manual entries from every screen.

SALE-01 · $180,000.00: 26-00803 credits the crane sale proceeds to accumulated depreciation, the equipment audit's SALE-01. Not proposed again here.

MAT-01 · $340,000.00: Materiality is proposed at $340,000.00, 0.5% of revenue, with performance materiality $255,000.00. The engagement partner sets the final amounts.

MRL-01: No management representation letter has been obtained. It should cover the completeness of the ledger, the entries after the close and the absence of other unrecorded entries.

SIGN-01: These are draft workpapers and a draft findings memo for the engagement partner. They are not an audit report and give no opinion. Nothing has been signed, posted or sent.

This memo is a draft for the engagement partner. It is not an audit report and expresses no opinion; nothing has been signed, posted or sent.

DRAFT FOR THE CPA
