2026 Federal Estimated Tax Plan · Form 1120

Draft plan for review, as of November 7, 2026. Prepared plan; not Form 1120-W or Form 2220.

Corporation	HANGS Construction Services LLC
EIN	91-7305518 (demonstration)
Tax year	Calendar year 2026
Next due	December 15, 2026, the 4th installment

What to pay

Now, settling November 13, 2026: catch-up on the 3rd installment	**3,905.90**
December 15, 2026: the 4th installment	**15,246.43**
2026 estimated tax in all, with the payments already made	59,302.33
About this much due with the 2026 return on April 15, 2027 (no penalty)	13,542.47

Why these amounts

Required annual payment: the 2025 tax (prior-year safe harbor)	59,302.33
Expected 2026 tax, for comparison (higher, so the 2025 tax sets the bar)	72,844.80
2025 taxable income: HANGS is not a large corporation (under $1,000,000 in 2023 to 2025)	282,392.05

The first quarter was slow and carried the January bonus, so the annualized income installment method lowers the first two installments; the fourth recaptures the last of the reduction. Form 1120-W is historical: the worksheet is the one in Publication 542.

Where 2026 stands (Form 2220 preview)

2026 estimated tax paid so far, the June payment included	40,150.00
3rd installment short since September 15	3,905.90
Penalty so far, to November 7, 2026	39.71
Penalty if the catch-up settles November 13, 2026	44.20

The June 15 payment was designated to the 2025 tax period; if it is not moved to 2026 the penalty so far would be $181.73 (EFTPS-01). Without the annualized method it would be $166.21.

Nothing has been paid or scheduled. Open items stay with a person: SHORT-01, EFTPS-01, ANNUAL-01, PRIOR-01, PLAN-01.

DRAFT PLAN

Estimated Tax Worksheet (the Form 1120-W Lines)

Form 1120-W is historical since its 2022 revision; these are the lines of the worksheet in Publication 542.

1	Expected taxable income for 2026	346,880.00
2	Line 1 x 21%	72,844.80
3-7	Credits, other taxes, refundable credits	0.00
8	Expected 2026 tax	72,844.80
9	Tax shown on the 2025 return (12 months, positive tax)	59,302.33
10	**The smaller of line 8 or line 9**	**59,302.33**
11	**Each required installment: 25% of line 10, unless the annualized method is lower**	**14,825.58**

Large corporation test (section 6655(g)(2))

2023 taxable income	211,900.00
2024 taxable income	230,000.00
2025 taxable income	282,392.05

A large corporation had $1,000,000 or more of taxable income in any of the 3 preceding years and could base only its 1st installment on last year's tax. HANGS is not one, and is in no controlled group, so last year's tax covers all four installments.

DRAFT PLAN

Annualized Income Installment Method (Form 2220, Schedule A)

Standard periods (no Form 8842 election). Line 38 takes the smaller of the annualized and the regular installment plus recapture.

Line	1st	2nd	3rd	4th
20 Months in the period	3	3	6	9
21 Taxable income for the period	31,420.00	31,420.00	139,860.00	248,610.00
22 Annualization amount	4	4	2	1.33333
23 Annualized taxable income	125,680.00	125,680.00	279,720.00	331,479.17
24 Tax at 21%	26,392.80	26,392.80	58,741.20	69,610.63
30 Applicable percentage	25%	50%	75%	100%
31 Cumulative annualized installment	6,598.20	13,196.40	44,055.90	69,610.63
33 Required installments before this one	0.00	6,598.20	13,196.40	44,055.90
34 Annualized installment	6,598.20	6,598.20	30,859.50	25,554.73
35 Regular installment	14,825.58	14,825.58	14,825.58	14,825.59
36 Reduction not yet recaptured	0.00	8,227.38	16,454.76	420.84
37 Regular plus recapture	14,825.58	23,052.96	31,280.34	15,246.43
38 Required installment	**6,598.20**	**6,598.20**	**30,859.50**	**15,246.43**

Total of line 38: $59,302.33, the required annual payment. The January 9 officer bonus (accrued for 2025, deductible in 2026) and the winter months keep the first quarter's income low; annualizing it lowers the 1st and 2nd installments. The 4th installment includes $420.84 recaptured.

2nd · due June 15, 2026	6,598.20	6,598.20	0.00
3rd · due September 15, 2026	30,859.50	26,953.60	3,905.90
4th · due December 15, 2026	15,246.43	0.00	not yet due

Penalty on the 3rd installment shortfall

3,905.90 from Sep 15 to Oct 1: 16 days at 7%	11.99
3,905.90 from Oct 1 to Nov 7: 37 days at 7%	27.72
Penalty to November 7, 2026	**39.71**
If the catch-up settles November 13, 2026	**44.20**

Payments go to the earliest unpaid installment whatever they were meant for. The penalty is the 2026 underpayment rate (7% from July 1; 6% April to June) on each day an installment is short, at most until April 15, 2027. Reasonable cause relief does not apply to the estimated tax penalty; only paying stops it.

Remaining Payments and the EFTPS Schedule

Payment 1: catch-up

Settlement date	November 13, 2026 (Friday)
Tax form	1120
Tax type	Estimated tax (federal tax deposit)
Tax period	12/2026 (the 2026 tax year; not 12/2025)
Amount	**3,905.90**

Payment 2: 4th installment

Settlement date	December 15, 2026 (Tuesday)
Tax form	1120
Tax type	Estimated tax (federal tax deposit)
Tax period	12/2026
Amount	**15,246.43**

After both payments

2026 estimated tax in all: the full prior-year safe harbor	**59,302.33**
Projected 2026 tax	72,844.80
About this much due with the return, April 15, 2027	13,542.47

Schedule each payment in EFTPS ahead of its date. EFTPS accepts same-day payments of $1 million or less submitted before 3:00 p.m. Eastern time on a business day (Instructions for Form 1120). Select tax period 12/2026 on both: the June payment went to 12/2025 by mistake.

If the June payment has not been moved to 2026 by December 15, pay another $12,075.00 that day as well and claim the 2025 overpayment back (EFTPS-01).

To: Morgan Lee, Controller
Subject: Your December estimate, and a catch-up payment now

Hi Morgan,

Short version: pay $3,905.90 now and $15,246.43 on December 15. That brings 2026 to $59,302.33, the same as last year's tax, which is all the IRS requires to avoid the underpayment penalty for the year.

Why not $12,075 a quarter? This year's bar is last year's tax, $59,302.33, not 2024's. Because your first quarter was slow (and carried Celeste's January bonus), the IRS lets us figure the first installments on your actual income to date, which is lower. On that basis April and June were fine, but September was $3,905.90 short. A small penalty is running, about $39.71 so far; paying now stops it.

About June: you're right, the payment went to tax period 12/2025. We'll ask the IRS to move it to 2026. If that hasn't happened by December 15, pay another $12,075.00 that day and we'll get the 2025 credit back.

Looking ahead: 2026 tax is projected at $72,844.80, so expect about $13,542.47 due with the return on April 15, 2027, with no penalty.

Thanks,

F1 Finance

DRAFT PLAN

WHAT STILL NEEDS A PERSON

SHORT-01 · $3,905.90: The 3rd installment is $3,905.90 short since September 15, 2026 even with the annualized method and the June payment counted. The penalty runs at 7% (about $0.75 a day): $39.71 to November 7, $44.20 if the catch-up settles November 13. It cannot be removed for reasonable cause; paying now is the only way to stop it. A person schedules the payment.

EFTPS-01 · $12,075.00: The June 15 payment of $12,075.00 (EFT 270496102284) was designated to tax period 12/2025, the 2025 year, which was already paid in full. Left there, it is a 2025 overpayment, not a 2026 installment: the 2nd installment would have been $1,121.40 short from June 15, the 3rd $15,980.90 short now, and the penalty so far $181.73. A person (with Form 2848 on file, or the controller) asks the IRS to move it to 12/2026. If it is not moved before December 15, pay another $12,075.00 then and claim the 2025 overpayment back.

ANNUAL-01: The annualized method rests on the controller's closed-month taxable income for 3, 6 and 9 months ($31,420.00, $139,860.00, $248,610.00), not reviewed. The first quarter includes the $30,000.00 officer bonus paid January 9, which annualizing multiplies by 4; a person confirms the interim figures and that no item is an extraordinary item the Form 2220 instructions add after annualizing. Form 2220 with Schedule A must be attached to the 2026 return.

PRIOR-01 · $59,302.33: The safe harbor is the $59,302.33 of tax on the 2025 return filed October 13, 2026, the Form 1120 demo's figure. The 2025 draft left officer pay approval and the related-party advance open; an amended 2025 return filed before December 15 would reset the 4th installment's base. A person confirms no amendment is planned before then.

PLAN-01 · $19,152.33: Unsigned plan. Nothing has been paid or scheduled: $3,905.90 on November 13 and $15,246.43 on December 15, both EFTPS, Form 1120, tax period 12/2026, estimated tax. Paying only the safe harbor leaves about $13,542.47 due April 15, 2027 on the projected tax of $72,844.80; the controller may prefer to pay more in December for cash planning. The projection changes with the December results.

This PDF is a draft plan. It is not Form 1120-W or Form 2220, and nothing has been paid, scheduled or filed.

TAX RULE CHECKS

Official sources checked during this run. These checks inform a reviewer, change no amount and settle no judgment.

What must HANGS pay in 2026 to avoid the estimated tax penalty?

Verified Online · 26 U.S. Code 6655, Failure by corporation to pay estimated income tax · retrieved 2026-11-07 · determined-by-facts

https://www.law.cornell.edu/uscode/text/26/6655

Projected 2026 tax $72,844.80; 2025 tax as filed $59,302.33 for a full 12-month year. The lesser, $59,302.33, is the required annual payment: $14,825.58 an installment.

Is HANGS a large corporation, which could not use last year's tax?

Verified Online · 26 U.S. Code 6655, Failure by corporation to pay estimated income tax · retrieved 2026-11-07 · determined-by-facts

2023 $211,900.00, 2024 $230,000.00, 2025 $282,392.05: none near $1,000,000, no carryovers, and no controlled group (Juniper Ridge Partners LLC is a disregarded single-member LLC). The rule does not apply: last year's tax covers all four installments.

When are a calendar-year corporation's installments due, and when may last year's tax be used?

Verified Online · Publication 542, Corporations · retrieved 2026-11-07 · determined-by-facts

https://www.irs.gov/publications/p542

2026 dates: Wednesday April 15, Monday June 15, Tuesday September 15 and Tuesday December 15, all business days. The 2025 return was 12 months with $59,302.33 of tax.

Is Form 1120-W still the worksheet to use?

https://www.law.cornell.edu/uscode/text/26/6655

Taxable income was $31,420.00 for the first 3 months (winter work and the January 9 bonus), so installments 1 and 2 drop to $6,598.20 each; installment 3 is $30,859.50 and installment 4 $15,246.43, which recaptures $420.84.

Which annualization periods and amounts apply, and how is each installment chosen?

Verified Online · Instructions for Form 2220 (2025) · retrieved 2026-11-07 · determined-by-facts

https://www.irs.gov/instructions/i2220

No Form 8842 was filed, so the standard periods apply. Line 38: $6,598.20, $6,598.20, $30,859.50, $15,246.43 = $59,302.33, the required annual payment (the 4th carries the rounding cent).

Installment 3 is $3,905.90 short: the plan pays it on November 13, 2026, and Form 2220 with Schedule A goes with the 2026 return.
