FY2026 Payroll Audit · Draft Findings for the CPA

Findings for the CPA from payroll audit procedures; not an audit report and no opinion.

Client	HANGS General Contracting LP
Period	Fiscal year July 1, 2025 to June 30, 2026
Engagement	Payroll procedures within the FY2026 audit: analytics, a stratified sample traced to time records, rate approvals and personnel files, gross-to-net recomputed, rate changes and leavers, and the ties to the ledger and the Forms 941.
Prepared from	7 files: the trial balance and payroll expense ledger, the payroll register, the HR log, the sample support, the Form 941 summaries and the written answers
Prepared by	The F1 Finance Audit Machine, a demonstration. Fixed procedures on invented data; no AI model was used.
Status	Draft. Not reviewed, concluded or signed. Nothing was posted or sent to the client.

Materiality, Proposed

Contract revenue for the year, the benchmark	$70,300,400.00
Materiality: 0.5% of revenue, rounded down	$350,000.00
Performance materiality: 75%	$262,500.00
Clearly trivial: 5%	$17,500.00

What the Procedures Found

Procedure	What was found	Amount
Register	The register agrees to every paycheck, the employee master and the ledger with the accruals	$12,017,414.84
Analytics	Every month within a few percent of its expectation; wages for the year follow headcount from FY2025 (95.65 people per payday)	$50,581.50
Ghost tests	One shared deposit account, two married carpenters: cleared by inquiry and the personnel files (GHOST-01)	$12,017,414.84
Sample	Eight paychecks traced to timesheets, rate approvals and personnel files; gross to net recomputed	$35,828.19
Withholdings	L&I employee share taken on time and a half for overtime; estimated over-deduction for the year (WH-01)	$2,514.64
Rate changes	The Payroll and HR Manager's own raise, entered by her, with no signed approval: paid to June 30 (RATE-01)	$4,999.93
Leavers	Six leavers each paid one final check and nothing after; nobody paid who should have left	$12,017,414.84
Accrual	June 30 wages cut off correctly; the employer taxes on them were never accrued (ACC-01)	$22,864.35
Forms 941	All four quarters agree to the register and were filed on time; line 2 for the year	$11,369,726.27

Signature: none. This memo is not an audit report and gives no opinion. The CPA reviews the workpapers, decides every open item and concludes. No adjustment has been posted.

DRAFT FOR THE CPA

Draft Payroll Findings

Against Materiality

Known misstatements in expense (ACC-01, FY2026)	**$2,892.10**
Liabilities understated (ACC-01 and WH-01)	$25,378.99
Unapproved raise paid (RATE-01), a control matter	$4,999.93
Performance materiality	$262,500.00
Materiality	$350,000.00

What was done

The machine tied the trial balance’s payroll accounts to the ledger, agreed the register to its 2,493 paychecks and the employee master, set an expectation for every month and for the year, and ran five ghost-employee tests on the whole master file. It drew a stratified sample with the plan’s seed, traced each paycheck to its timesheet, rate approval and personnel file and recomputed gross to net. It found every rate change in the paychecks, tested every leaver, recomputed the June 30 accrual from the July 10 payroll and agreed each quarter to its Form 941.

What the records support

Pay is recorded completely and in the right year: the register, the ledger and the Forms 941 agree, the accrued wages follow the next payroll, nobody was paid after leaving and the one shared deposit account belongs to a married couple who both work. Gross pay and every withholding except L&I recompute.

What the CPA decides before concluding

1. Whether the client records the employer taxes on the accrued wages; passed otherwise (ACC-01). 2. The Managing Director’s confirmation of the Payroll and HR Manager’s raise, and how the CPA weighs that she can change her own pay (RATE-01). 3. The L&I setup and the refunds (WH-01). 4. The clearance of the shared account (GHOST-01). 5. The representation letter (REP-01).

What the machine does not do

It does not give an opinion, write the audit report, sign anything or post an adjustment. Concluding is the CPA’s job; the machine stops here.

DRAFT FOR THE CPA

WHAT STILL NEEDS A PERSON

ACC-01 · $22,864.35: The June 30, 2026 accrued wages, $314,193.69, are cut off correctly, but the employer's Social Security and Medicare on them, $22,864.35 at the July 10 payroll's own rate, was expensed when paid and never accrued (Q6). The same was true at June 30, 2025 ($19,972.25), so FY2026 expense is understated $2,892.10 and liabilities $22,864.35. Proposed: debit 6210 $2,892.10 and partners' capital $19,972.25 (the prior year's, if the CPA treats it so), credit 2210 $22,864.35. Over clearly trivial, under performance materiality: passed if the client declines. Paid Leave and L&I employer premiums on the accrual are smaller and not estimated. The machine never posts.

RATE-01 · $4,999.93: Renata Salazar, Payroll and HR Manager, entered her own increase from $88,000.00 to $98,000.00 effective December 22, 2025, and its personnel action form PAF-25-119 is not signed. Q4 says the Managing Director agreed it in her review. $4,999.93 more was paid in 13 paychecks to June 30. The pay is recorded correctly; the question is authorization. Ask the Managing Director to confirm and sign the form, and the CPA weighs it as a control deficiency: the person who keeps the master file can change her own pay.

WH-01 · $2,514.64: The payroll system takes the L&I employee share on time and a half for each overtime hour (Q7); L&I counts an overtime hour as one hour and an employer may not deduct more than the share. The sample shows $4.94 over-deducted on 3 paychecks; at the year's 8,570 overtime hours it is roughly $2,514.64, owed back to the crews, and the setup is still wrong in the Q3 2026 payrolls. A person fixes the setup and arranges the refunds.

GHOST-01: Xavier Baptiste (E-1044) and Alicia Baptiste (E-1051) are paid into the same account. Cleared by inquiry (Q3) and the personnel files: they are married, each has an I-9, a W-4 and a signed deposit form naming the joint account, and their hours are approved by different superintendents. No further work is proposed; the CPA reviews the clearance.

MAT-01 · $350,000.00: Materiality is proposed at $350,000.00, 12100000.0% of the year's revenue, with performance materiality $262,500.00 and clearly trivial $17,500.00. The engagement partner sets the final amounts.

REP-01: No management representation letter has been obtained. The CPA requests it near the end of fieldwork, covering the payroll answers relied on here.

SIGN-01: These are draft workpapers and findings for the engagement partner. They are not an audit report and give no opinion. Nothing has been signed, posted or sent to the client.

This memo is a draft for the engagement partner. It is not an audit report and gives no opinion; nothing has been signed, posted or sent.
