Q3 2026 Quarterly Review · Draft Memo for the CPA

Findings for the CPA from review procedures; not a review report and no conclusion.

Client	HANGS General Contracting LP
Period	Quarter ended September 30, 2026, the first quarter of the fiscal year ending June 30, 2027
Engagement	Review procedures for the bonding company and the lender: inquiry and analytical procedures. Not an audit: nothing was confirmed, vouched or sampled.
Prepared from	8 files: the comparative trial balance, the interim statements and budget, the controller's written answers, the job schedule, the Q3 payroll ledger, and the bank's loan statement and covenants
Prepared by	The F1 Finance Audit Machine, a demonstration. Fixed procedures on invented data; no AI model was used.
Status	Draft. Not reviewed, concluded or signed. Nothing was posted or sent to the client, the bank or the bonding company.

Materiality and the Threshold, Proposed

Contract revenue for the quarter, the benchmark	$21,696,700.00
Materiality: 0.5% of revenue, rounded down	$100,000.00
Performance materiality: 75%	$75,000.00
Investigate a change over (and over 10%)	$50,000.00

What the Procedures Found

Procedure	What was found	Amount
Statements	The interim statements agree with the trial balance at both dates; the trial balance balances in all three columns	$21,696,700.00
Comparisons	Revenue up 13.2% on the prior quarter; gross margin down to 8.28% from 10.20%; net income against budget	($366,696.07)
Jobs	Revenue rebuilt job by job from the contract schedule agrees with the books to the cent	$0.00
Billing swing	Revenue ran ahead of billings by the whole swing, most of it Alder Point	$964,200.00
Margins	Tideflats Cold Storage earned this much less than its June margin after its estimate was revised (JOB-01)	$382,720.00
Change order	Revenue includes unsigned change order PCO-14 on Alder Point: a judgment above materiality (REV-01)	$259,200.00
Accrued wages	The increase ties to the payroll ledger: the September accrual covers more working days	$284,435.83
Interest	Recorded when the bank debits it; September is not accrued, contrary to the controller (INT-01, INQ-01)	$35,350.00
Covenants	Tangible net worth headroom, after leaving out what Juniper Ridge Partners owes; gone if PCO-14 is not counted (COV-01)	$129,999.00
Related party	The Juniper Ridge Partners job is built for Juniper Ridge Partners LLC, under the same owners; the statements have no related party note (RP-01)	$1,638,000.00

Signature: none. This memo is not a review report and expresses no conclusion. The CPA reviews the workpapers, decides every open item and concludes. No adjustment has been posted.

DRAFT FOR THE CPA

Draft Review Memo

Against Materiality

Known misstatements, added up (INT-01, this quarter)	**$6,685.00**
Accrued interest missing from liabilities (INT-01)	$35,350.00
Judgment: PCO-14 in revenue (REV-01)	$259,200.00
Performance materiality	$75,000.00
Materiality	$100,000.00

What was done

The machine agreed the trial balance and tied the interim statements to it, compared the quarter with the prior quarter, the same quarter last year and the budget, and investigated every line that moved more than the threshold. It put each fluctuation to the controller in writing and corroborated the answers against the job schedule, the payroll ledger and the bank's loan statement. It recomputed the three loan covenants as the agreement defines them. No balance was confirmed with a third party, no invoice was vouched and nothing was sampled: this is a review, not an audit.

What the records support

Revenue and job costs rebuild exactly from the jobs; the billing swing and the retainage are explained; wages and accrued wages are the payroll ledger's; the drop in margin is one job's revised estimate, recorded as a change in estimate. The controller's answers on revenue, billings, margins, accrued wages, cash and the line agree with the records.

What the CPA decides before concluding

1. Whether PCO-14 can be counted in revenue yet (REV-01). 2. Then whether the net worth covenant is met and the loans stay long-term (COV-01). 3. Whether the client records the missing interest; passed otherwise (INT-01). 4. The related party disclosure for Juniper Ridge Partners (RP-01). 5. What the contradicted interest answer means for relying on the others (INQ-01). 6. The Tideflats estimate support (JOB-01). 7. The representation letter (REP-01).

What the machine does not do

It does not express a review conclusion, write the accountant's review report, sign anything or post an adjustment. Concluding is the CPA's job; the machine stops here.

DRAFT FOR THE CPA

WHAT STILL NEEDS A PERSON

REV-01 · $259,200.00: Alder Point's schedule counts pending change order PCO-14, $640,000.00 for the MRI suite shielding redesign, submitted August 28 and not signed by the owner. It adds $259,200.00 to the quarter's revenue and gross profit, 259% of materiality. Revenue from an unapproved change order may be counted only when it is probable that a significant reversal will not occur. The CPA reads the change order, the owner's and architect's correspondence and the history of approvals on this owner, and decides. The machine counts nothing either way.

INT-01 · $6,685.00: Interest is recorded when Cinderbrook Bank debits it, not as it accrues. September's interest, $35,350.00 on the bank's statement, is not in the books, and June's $28,665.00 was recorded in July. Expense for the quarter is understated $6,685.00, 6.7% of materiality, and accrued interest by $35,350.00. Proposed: debit interest expense $6,685.00 and partners' capital $28,665.00 (June's interest, a correction of FY2026, if the CPA treats it so), credit 2410 accrued interest $35,350.00. Under performance materiality: passed if the client declines. The machine never posts.

COV-01 · $129,999.00: Tangible net worth as the loan agreement defines it is $6,629,999.00, $129,999.00 above the $6,500,000 minimum, after leaving out $715,500.00 due from Juniper Ridge Partners, an affiliate. With INT-01 recorded and PCO-14 left out it would be $6,335,449.00, short by $164,551.00: an event of default unless the bank waives it, which could make the line of credit and the term loan current. Working capital $4,789,499.00 and leverage 2.46 to 1 stay within their limits either way. The controller says the certificate goes to the bank by November 14 (Q11). The CPA decides REV-01 first, then the covenant and the debt classification.

RP-01 · $1,638,000.00: The Juniper Ridge Partners job (J-2625), nine flex units, is built for Juniper Ridge Partners LLC, a commercial developer under the same owners, building flex industrial units on land it owns (Q7). It earned $1,638,000.00 of revenue in the quarter, and $715,500.00 is due from it in receivables, retainage and underbillings. The interim statements fold it into contract receivables and have no related party note. The CPA decides the disclosure; the bonding company and the lender read these statements.

JOB-01 · $382,720.00: Tideflats Cold Storage's estimate rose from $16,284,000.00 to $17,480,000.00 (14 tilt-up panels recast, a 9% panel price increase; Q3). The cumulative effect, $382,720.00 below the June margin, is in this quarter, which is how a change in estimate is recorded. The job still expects a profit, so no loss provision. The backcharge against the precaster is not recorded, which is right while it is only a claim. The CPA reads the revised estimate and the recast quotes.

INQ-01: The controller answered in writing that interest on both loans is accrued monthly (Q5). The bank's statement and the books show it is not. Every other answer was corroborated by a record. The CPA considers what this means for relying on the answers and asks how the controller closes the quarter.

SUB-01 · $500,000.00: After the quarter, HGC drew a further $500,000.00 on the line of credit on October 9 and started Lakeside Clinic (Q9). Neither changes the September 30 figures; the CPA decides whether the statements should mention the borrowing.

MAT-01 · $100,000.00: Materiality is proposed at $100,000.00, 0.5% of the quarter's revenue, with performance materiality $75,000.00, clearly trivial $5,000.00 and a $50,000.00 threshold for investigating a change. The engagement partner sets the final amounts.

REP-01: No management representation letter has been obtained. A review needs one, dated near the date of the CPA's report, covering the answers relied on here.

DRAFT FOR THE CPA

WHAT STILL NEEDS A PERSON, CONTINUED

SIGN-01: These are draft workpapers and a draft review memo for the engagement partner. They are not a review report and express no conclusion. Nothing has been signed, posted or sent to the client, the bank or the bonding company.

This memo is a draft for the engagement partner. It is not a review report and expresses no conclusion; nothing has been signed, posted or sent.
